The Oracle

Film & TV Production Forecast

Created and Ran by Industry Crew Members

May 1, 2013

Oracle Forecast Ltd

Welcome to the 'The Oracle'!

Who is 'The Oracle'?

We are a group of Freelance Crew members who have many years of experience behind us working within our Film & Television Industry.

Using our own knowledge and inside information we shall produce a production forecast once a month of what's on the horizon in our Film & TV Industry.

Our aim is to provide as much contact information as possible to help with your relentless search for that next job!

We shall produce the Oracle Issue on the 1st of the month each and every month.

We aim to provide direct email addresses of Producers/Line Producers and Production Managers where we can. And when this isn't possible we shall provide a point of contact for the production company or the very least the production inquiry address.

We wish you the all the best with your search!

Thank you for using Oracle Forecast Ltd

Please note: Updates and new information is in bold letters
